E.B.(I).

Submitted with reference to G.L. No. 2004/36-El., dated the 29-7-49.

2. The Elecl. Commr. with the Govt. of Bombay has forwarded the requisition forms for the posts of Ex.Engr. & Asstt. Engr. sanctioned in G.L. No.2004/36-El., dated the 29-7-49. A draft corrigendum to the G.L., as required by the Elecl. Commr., in respect of the pay scale of the post of Asstt. Engr. is put up in the linked case (file No. 2004/36) and may issue after Edn has seen the papers ma.

△ Copy of the corrigendum put up at the abovenoted file (marked "A").

× copy put up at the above noted file (marked 'B').

3. The officers under the Electric Grid employed on the revised scales of pay are now eligible for compensatory local allnce. and house rent allnce. as admissible to them, vide G.R., F.D., No.6567/33, dated the 14-12-1948 and G.C., F.D., No.6567/33, dated the 30-6-1949. The necessary entries have been made in the requisitions forwarded by the Elecl. Commr. at pp.5-19 of the concern. section. Items 17 and 19 of the requisition forms have also been suitably amended. The officers under the Electric Grid are also required to pass the regional language examination. The necy. addn. has been made to item 22 of the requisition forms. In the requisition for the post of Asstt. Engr. (Transmission), the age limit mentioned by the Elecl. Commr. against item 15 of the requisition form is 35 years. In the requisitions for the posts of Asstt. Engrs. recently forwarded to the P.S.C. the age limit has been raised to 45 years. In

the .....

the circumstances the necessary correction has ~~accordingly~~ been made in the requisition form in question. The P.S.C. may be addressed to advertise the two post's as per draft ~~put~~ up after P.& S.D. and F.D. have seen u.o.

2. Serial No.66672. p. 28 of c/s Please see G.L. No.1184/48-E(I), p. 23 of c/s dated the 27-10-1949. The Commr's recommendations in the matter may be awaited.

3. Serial No.68934. p 30 of c/s The El. Commr. has asked for additional sanction to the Civil Engrg. estabt. mentioned in para. 2 of his letter at p. 29 of the corresp. section. That officer has stated that the post of Asstt. Engr. may be sanctioned for a period of 5 years and the other posts for 3 years in the first instance. It is for orders whether the El. Commr's recommendation may be accepted in u.o. consultation with the F.D. If so, the post of Asstt. Engr. will be sanctioned in the scale of Rs.220-15-400-E.B.-20-500-E.B.-25-650 and the estabt. will be eligible for contributory Provident Fund and the other privileges admissible to similar, estabt. of the Bombay El. Grid.

4. With ref. to para. 4 of the El. Commr's letter at p. 3c of the corresp. section it may be mentioned that seven tempy. Dy. Engrs. have already been allotted to the El. Grid from the candidates recommended by the Bombay P.S.C., vide G.L. No.9859/36-VI-E(I), dated the 6-10-1949.

Finance Department P.W.R.I.

Para. 2 of the Commr.'s letter dated 19th October 1949 indicates the duties of the proposed staff. It appears from para.3 of his letter that the work of designs estimates etc. would start only after the ~~consequency~~ survey is completed. It is not, therefore, clear why the staff already sanctioned (vide G.L.2004/36-E dated 29th July 1949) should not be able to do this work also. The P.W.D. proposal is for orders.

A

2. Details of staff.- It is not clear why city scales have been proposed for the Jr.clerk and the peons. The scales may be standard mofussil scales i.e. Rs.46-105 for clerk and Rs.30-35 for peons. The average annual cost on account of pay alone would be Rs.19,800 approximately. As the cost exceeds Rs. 5000 p.a. the proposal will have to be routed as provided for vide p.29 of

however

3. It seems that the survey work is to be taken up immediately (It will be completed before the end of 1950). The papers may, therefore, be circulated to the E.P.C. in case the proposal is to be accepted during current year.

9.XI.49

16-11-49

The P.W.D. may kindly consider 'A' in the O.N. & state whether it is necessary to appoint the staff now.

That Deptt. may please state whether there is any objection to the application of the mofussil scale & whether the staff could be employed from April next.

.....

ELECTRIC GRID OFFICES.

With reference to the F.D's. note on page 5 of the Noting Section, it may be stated that the staff already sanctioned vide G.L.2004/36-El. of 29-7-49 is for the work of designs, specifications and estimates of the distribution of Jog Power Scheme, in so far as the electrical and mechanical part of the works are concerned, viz. transmission lines, distribution lines, substation switchgear, transformers, synchronous condensers, and service connections to H.T. consumers. Besides these electrical and mechanical works, there is a large volume of civil engineering work involved in the scheme, and this relates to the designs, specifications and estimates of technical buildings and substations, layouts of staff quarter colonies, including water supply, sanitation and lighting, and residential and administrative buildings. The staff sanctioned in G.L. 2004/36-El. of 29-7-49 is entirely electrical or electrical and mechanical, who will not be proficient in civil engineering works. This explains why the additional civil engineering staff is requested in my letter No.T.8/1/17145 of 19-10-49.

2. As the contract for the survey of the transmission line is expected to be given very shortly, and as the contractor's work will have to be supervised by Assistant Engineer(Civil), assisted by two Junior Engineers(Civil) under the overall higher supervision of Executive Engineer(Civil), Nadiad, it is requested that Government approval to my proposals may please be given at a very early date.

3. There is no objection to the application of the mofussil scales for junior clerks and peons. I would like to engage the staff in this financial year

if the Assistant Engineers(Civil) and Junior Engineer (Civil) could be recruited early.

4. With reference to the Public Service Commission's proposals referred to in their letter of 17-11-49(pages 31 and 32 of the correspondence section), the presumption of the Public Service Commission, that the intention of Government is to advertise the post of Assistant Engineer (Transmission) with qualifications as "a University degree in Electrical or Electrical and Mechanical Engineering or a Diploma in Electrical Engineering" is correct.

5. "The remarks of D.S. dated 5-11-49 have been noted and I have to add that official intimation to that effect vide G.L., P.W.D., No.7025/36-E(I) dated 31-10-49 has been received. In the circumstances, the gazetted post of Assistant Engineer(Civil) will have to be advertised through the Public Service Commission, as usual. This may kindly be done as soon as possible. The non-gazetted posts, of Junior Engineers(Civil), clerk and peons will be filled up by this office, by selection. It is requested that Government may kindly approve of these posts so that recruitment as above could take place, and works proceeded with.

ELECTRIC GRID OFFICES.

The Jog-Karnatik Electric Grid Scheme is estimated to cost about Rs.176 lakhs and will, under normal circumstances, take about five years for completion. The Scheme has been given high priority and has been to be completed as quickly as possible. Accordingly, a programme is drawn up by which the Scheme may be ready in about three years' time and power supply commenced from about October, 1953; further development and completion may take another two years.

The works involve long lengths of transmission lines totalling about 209 miles, out of which a good part of the 122 mile 110 kV line will pass through thick forest and hilly country, which are highly inaccessible. Proper supervision is essential while erection work is going on in such areas. Also, there are ten substations in this scheme, which are scattered far and wide, and this necessitates posting of staff at all the places during construction. Besides, the construction and erection work of Transmission lines, buildings-residential and non-residential at the substations - and the Civil Engineering works will have to be carried out simultaneously if the power supply is to commence by about October, 1953. The construction staff proposed corresponds to only one Division with the necessary Sub-divisions. It will not be possible to organize successfully a work of this magnitude and programme on less number of staff. Taking into consideration the above points and also the magnitude of the project and the short time for execution, the staff

proposed in my letter No.E.229/11552 dated 26-5-1950 is the minimum for satisfactory supervision and assistance for the smooth and expeditious completion of the Scheme. I, therefore, request Government to sanction the staff as proposed by me.

in para 2 of the P.W.D. note dt 7.6.50 at pp. 23-24 ante, in his memo. dated 21.7.50 at p 27 ante.

It is stated that the proposed staff is the barest minimum required for the efficient and expeditious execution of the work in question. It is stated that the Jog-Karnatik ~~Hydro~~ Electric Grid scheme has been given top priority in view of Govt's. desire to make power available from this scheme at the earliest. Pl vide Dy. Secy (P.W.D.)'s note dated 7.6.50 at p-24 ante. In the circumstances it seems necessary to sanction the required staff for the scheme. The proposal is, however, for orders in view of the considerable recurring cost involved in it (Rs. 67,056/- approximately excluding allowances). It is ~~proposed~~ that since there is a lump

2/8.50. ~~a~~ budget provision of Rs 10 lakhs for 'Distribution of Jog Power in Hubli & Haveri areas' under budget provision on a/c of Subsidiary ~~Works~~ / it is included in the budget. Re P.W.D. may be requested to clarify this point

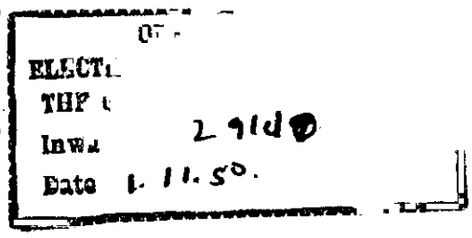
Finance Department,
(P.W.R. I)



Submitted with reference to the Office Note, dated the 14th August 1950. P. 32 ante

2. The P.W.D. has now made P 38 ante it clear that the expenditure of Rs.67,050 (recurring) on account of the proposed staff required for the work of construction of technical and residential buildings, etc., is not included in the current year's budget. The Dy. Secy. and Secy., P.W.D., are both of the opinion that the appointment of the staff required cannot be postponed until 1-4-1951 and it is stated that the same will have to be engaged this year only. In view of this, these papers may be circulated to E.P.C.

29.9.50

3. The expenditure of a capital nature on Electric Grid works is provided under the head "81-A", while the expenditure on establishment required for these works is initially recorded under the head "52-A", and it is then subsequently distributed on pro rata basis between the heads "52-A" and "81-A" in proportion to the expdre on works under these two major heads. In view of this the requisite supplementary demand for the establishment in question will have to be forwarded by the P.W.D. under "52-A". Since L.A's approval is to be anticipated, the papers may be submitted to E.P.C. for its approval. The P.W.D. may be requested to meet the expenditure in question from the sanctioned grants under "52-A" and "81-A" as far as possible, and to surrender the amount of supply demand in due course.

No.2004/36-El. Public Works
Bombay Castle, 29th July 1949.

To

The Electrical Commissioner
with the Government of Bombay.

Subject:- Utilisation of Jog power in the southern area of the Bombay Province: Steps to accelerate the xhx scheme for -.

Reference: Correspondence ending with your No.T.8/1/6084, dated the 13/14th April 1949.

2. Government agrees to your proposal to entertain the following additional staff for the work on designs, specifications and estimates of the distribution of Jog power scheme:-

	Scale of pay. Rs.
One Executive Engineer.	500-30-650-E.B.-45-1,100
One Assistant Engineer.	200-15-400-E.B.-20-500-E.B.-25-6[illegible]
Four Junior Engineers.	80-5-100-8-140-E.B.-10-220-E.B.-10-270
One Senior Draftsman.	160-10-270
One Junior Draftsman.	110-10-160
One Tracer.	46-3-85-E.B.-4-105

The posts of Executive and Assistant Engineers are sanctioned for a period of five years in the first instance and the incumbents thereof should be permitted to participate in the Contributory Provident Fund and should be granted the other allowances which have been allowed to similar establishment of the Bombay Electric Grid on mofussil scales of pay.

The non-gazetted posts, viz., Junior Engineers, Draftsman and Tracer, are sanctioned for a period of three years only.

3. Your proposal in respect of the purchase of equipment for the scheme is not agreed to. The purchase of the equipment should be made through the Director General of Industrie and Supplies. Your attention in this connection is invited to Government letter, Education and Industries Department, No.8024-G, dated the 10th January 1949 to the Government of India, Ministry of Industry and Supply.

4. Government agrees t8 your proposal to entrust the work of survey of transmission lines for the scheme on contract to a private firm of surveyds whose quotations are most suitable.

5. The cost of the establishment will be debitable to the head "52-A" and that for equipment and survey to the head "81-A". The expenditure that will be incurred during the current year should be reported in January 1950 in order to enable Government to obtain a supplementary grants under the above heads.

By order of the Governor of Bombay,

Very Urgent

Letter.

No.E/4 cas /13700
Electric Grid Offices,
Foreshore Road,
Bombay 1: 23 August 1949.

To

The Secretary to Government,
Public Works Department,
Bombay.

Subject:- Utilization of Jog Power in the Southern Area of the Bombay Province. Steps to accelerate the Scheme for:-

I have to refer to Government letter P.W.D.No.2004/36-EI dated 29th July 1949 in which Government have been pleased to sanction interalia 1 post of Executive Engineer and 1 post of Assistant Engineer for the above scheme, and to state that it is necessary to fill in the posts immediately. It is, therefore, requested that the Bombay Public Service Commission may please be addressed to advertise the posts in question as per accompanying requisition forms and to submit their recommendations to Government for filling in the posts as soon as possible.

2. The prescribed scale of the post of Assistant Engineer is Rs.220-15-400-E.B.-20-500-E.B.-25-650 and I have quoted that scale in the requisition form. The scale of Rs.200-15-400-E.B.-20-500-E.B.-25-650 mentioned in the Government letter referred to above, appears to be a typographical error. If so, necessary corrigendum may please be issued.

3. I shall be obliged for early action in the matter.

Encl: 2 forms in duplicate.

IMMEDIATE.

No. T.8/1/ 17145
Electric Grid Offices,
Foreshore Road,
Bombay 1: 19th October 1949.

To

The Secretary to Government,
Public Works Department,
Bombay.

SUBJECT Jog Karnatak Electric Grid Scheme-
Survey of Transmission Line Routes-

As per Government Letter No. 2004/36-EL of 29.7.1949 ers have been invited from prominent firms for the survey of the Transmission Line routes of the above scheme and proposals for entrusting the work to a contractor will be sent to Government after the tenders are received on 20.10.1949.

2. The survey party of the contractor will have to be accompanied by members of the civil engineering staff of this department in order to exercise the power of the Telegraph Authority to get the survey carried out without delay and also to supervise the work of the contractors. For this purpose the following staff will be required :-

1. One Assistant Engineer (Civil) in the scale 220-15-400-E.B.-20-500-E.B.-25-650.
2. Two Junior Engineers (Civil) in the scale 80-5-100-8-140-E.B.-10-220-E.B.-10-270.
3. One Junior Clerk in the scale 75-5-140-E.B.-6-200.
4. Two peons in the scale 35-1/2-40.

3. The survey work is expected to be completed by the end of 1950 and the same staff afterwards will be utilised for designs and estimates of the Civil Engineering portion of the Jog Karnatak Scheme, and later for supervision during the construction period. Hence the Assistant Engineer's post may be sanctioned for 5 years and the other posts on a 3 year basis in the first instance

The higher Civil Engineering supervision of this work is proposed to be included for the present in the duties of Executive Engineer (Civil) Nadiad who is a Transmission Line Engineer of considerable experience in this type of work.

4. As the survey work will start very shortly, I suggest that a suitable person from the list of names recommended by the Public Service Commission recently for the posts of Assistant Engineers be posted at once to this Department in anticipation of Government sanction of the post.

5. I shall be grateful for very early orders of Government.

CONFIDENTIAL.

No.744/1900.
Bombay Public Service Commission,
P. W. D. Secretariat,
Bombay No.1, 17th November 1949.

From

The Secretary,
Bombay Public Service Commission.

To

The Secretary to the Government of Bombay,
Public Works Department,
Bombay.

Sir,

With reference to Government letter, No. 1184/48-E(I), p.23 dated the 27th October 1949, I am directed to invite your attention to item 14(a) of the requisition for the post of Assistant Engineer (Transmission), according to which the academical qualification prescribed for the post is a university degree in Electrical and Mechanical Engineering or diploma in Electrical Engineering. It is not clear why a candidate, if he is a degree holder should be required to possess a degree in Electrical as well as Mechanical Engineering, while if he is a diploma holder, he should be required to possess a diploma in Electrical Engineering only. For the higher post of Executive Engineer (Transmission), which the Commission are also asked to advertise, the qualification prescribed by Government /vide item 14(a) of the requisition for the post_/ is only a degree or diploma in Electrical Engineering. Also, when the post of Assistant Engineer (Transmission) was advertised by the Commission in 1948 in response to Government letter, No.9288/36-E(I), dated the 9th July 1948, a degree or diploma in Electrical Engineering was prescribed. In the circumstances, it is presumed that the intention of Government is to advertise the post of Assistant Engineer (Transmission) with the academic qualification, "A university degree in Electrical or Electrical and Mechanical Engineering or a diploma in Electrical Engineering". The presumption made by the Commission may kindly be confirmed.

This should be put up without delay. 17/11/49

2. ...

2. The posts will be advertised by the Commission on receipt of Government reply.

Yours faithfully,

H. A. Wade

Secretary,
Bombay Public Service Commission.

BOMBAY PUBLIC SERVICE COMMISSION.

1. Executive Engineer, (Transmission).
2. Assistant Engineer (Transmission).

No.744.- Separate applications are invited preferably from persons domiciled in the Province of Bombay and displaced non-Muslims from Pakistan for (1) two posts of Executive Engineer (Transmission) and (2) one post of Assistant Engineer (Transmission), in the Bombay Electric Grid, in the General Provincial Service. Government servants and employees of local bodies and of States acceded to or merged in the Indian Union or of affiliated colleges are eligible if permitted to apply by the heads of their departments. The posts are non-pensionable and on contract basis for five years. The selected candidates will have to join duty as soon as possible after selection and will be required to serve in the Bombay City or any part of the Bombay Province. They will have to subscribe to the Contributory Provident Fund. The appointments will be terminable by six months' notice on either side. The selected candidates if not already in permanent Government service will be appointed only after they have been declared physically fit by the Medical Board. The candidates on appointment will have to enter into an agreement with Government and this agreement will determine the detailed conditions of their service. The officers will be required to pass within three years from the dates of their service the departmental examination prescribed for the officers of the Grid and also to pass a regional language examination and an examination in Hindustani as laid down by Government. Pay:- For posts (1):-Rs.500-30-650-E.B.-45-1100, and for post (2): Rs.220-15-400-E.B.-20-500-E.B.-25-650. In addition for both the posts dearness compensatory local and house rent allowances as admissible under the rules. A higher starting salary than the minimum of the scale may be given to specially qualified candidates for both the posts. Age:- Not more than 45 years on the 1st April 1950, relaxable in the case of deserving candidates. Qualifications:- For posts (1):-(i) A University degree in Electrical Engineering or the Diploma in Electrical Engineering of the Indian Institute of Science, Bangalore, or any other institution of similar status (preference will be given to candidates, who in addition are members or associate members of the Institution of Engineers, India, the Institution of Electrical Engineers); (ii) Practical experience of various fields of electrical engineering of not less than 10 years at least 5 of which should have been spent in a position of responsibility connected with designing, erection and maintenance of high (66 K.V. and over) and low tension transmission and distribution systems. For post (2):-(i) A University degree in Electrical or Electrical and Mechanical Engineering from a college or institution affiliated to a University or equivalent academic qualifications (preference will be given to degree holders or to persons holding academic qualifications equivalent to a degree in Electrical or Electrical and Mechanical Engineering); (ii) 7 years' practical experience of electrical or electrical-cum-mechanical engineering works, three of which should have been on the work of design, construction and operation of large E.H.T. (66 K.V. and over) and low tension transmission and distribution lines and sub-stations). Duties:- For posts (1):-To assist the Superintending Engineer (Transmission) in the work of designs, construction and maintenance of large high (66 K.V. and over) and low tension transmission and distribution systems. For post (2):-To assist the Executive Engineer (Transmission) on designs and execution of large E.H.T. (66 K.V. and over) and low tension transmission and distribution systems.

Applicants should supply full details in the printed prescribed form of application, copies of which can be had from the undersigned on requisition accompanied by a large addressed envelope bearing four annas postage stamps and on payment of Re.1/- for each form either in cash in the office of the Commission or by a crossed Indian Postal Order in favour of the "Secretary, Bombay Public Service Commission, Bombay 1". Persons registered with the Employment Exchanges can obtain the form on application in person at the Exchange Office. Payment by postage stamps will not be accepted. Separate applications by registered post should reach the Secretary, Bombay Public

Public Service Commission, P.W.D.Secretariat, Bombay No.1, before the 5th February 1950. Canvassing in any form will disqualify the candidate concerned.

Bombay, 1. March, 1950.

To

The Secretary to Government,
Public Works Department,
Bombay.

Sub: Recruitment of - for the Bombay Electric Grid.

I have to refer to Government Resolution, Public Works Department, No. 1184/48 of 1st February 1950 wherein Government have been pleased to sanction one post of Assistant Engineer (Civil) in connection with Jog-Karnatak Scheme. The survey work has ~~actually~~ already been started and it is therefore necessary to post one Assistant Engineer (Civil) immediately for this work. I therefore request that you will be so good as to move Government to address the Bombay Public Service Commission to advertise the posts and forward their recommendations to Government for appointment as early as possible.

2. I append hereto necessary requisition form (in duplicate).

I shall be obliged for immediate action in the matter.

P B Advani
Electrical Commissioner
with the Government of Bomba

P.W.D.Secretariat,
Bombay No.1, 29th March 1950.

From

The Secretary,
Bombay Public Service Commission.

To

The Secretary to the Government of Bombay,
Public Works Department,Bombay.

Sir,

With reference to Government letters, No.1184/48-E(I) dated the 27th October 1949 (so far as it relates to the post of Executive Engineer, Transmission), and No.1668/48-E(1), dated the 9th December 1949, regarding recruitment to the post of Executive Engineer (Electrical and Mechanical), Transm

I am directed to state that the Commission interviewed fi candidates but found only one of them, Shri R.P.Patel, to suitable. They accordingly recommend him for appointment to on of the posts and ~~xxxx~~ are unable to make any recommendatio respect of the other.

2. Shri Patel has asked for a starting pay of Rs.1,000/- per mensem. In the opinion of the Commission, a starting salary of Rs.920/- per mensem would be reasonable but, as Shri Patel has stated that he is not willing to accept less than the amount asked for by him, they leave the question of the starting salary to the discretion of Government.

3. Shri T.J.Mirchandani,M.Sc.(Engg.),M.I.E.E.,Chief Engineer Bombay Electric Grid, was present at the interview.

4. A statement of particulars regarding Shri Patel is enclosed.

Yours faithfully,

Sd. B. J. Israel,
SECRETARY,
Bombay Public Service Commission.

No.E.229/11552
Electric Grid Offices,
Foreshore Road,
Bombay.1: 26th May, 1950

To

The Secretary to Government,
Public Works Department,
Bombay.

Subject:- Civil Engineering Staff for Jog-Karnatak Transmission line Scheme.

I have to state that the Survey Work of the Transmissio line routes of the above Scheme is in progress and simultaneou the work of preparation of designs & estimates is also taken i hand. The Survey work is expected to be completed by the end c this financial year. As soon thereafter as possible it is propc to start the work of construction, of technical & resident buildings, transmission lines and sub-stations. The Transm lines are:-

1)	110 KV lines.	-	122 miles.
2)	33 " "	-	64 "
3)	11 " "		23 "

There will be in all Ten Substations. The total estimated cost of the Scheme is Rs. 176/lakhs.

2. In view of above and for the efficient execution of work it is proposed to constitute a division in charge of an Executiv Engineer(Civil) with head quarters at Hubli and 4 sub-divisions 1 electrical sub division in charge of Assistant Engineer(E.& M.) with head quarters at Hubli and 3 Civil Engineering Sub-division in charge of 3 Assistant Engineers(Civil) whose head quarters wi be decided on at a later date. The actual total requirements of staff for the proposed division and 4 sub-divisions are shown in the attached statement. One post of Assistant Engineer(Civil) & 2 posts of Junior Engineers(Civil) already sanctioned in G.R. P.W.D. No.1184/48 dated 1st Feb. 1950 for survey work will be available for construction work. It is therefore proposed that these posts be reduced from the total requirements of 3 Assistar Engineers(Civil) & 9 Junior Engineers (Civil) i.e. additional posts of 2 Asstt.Engineers (Civil) & 7 Junior Engineers (Civil) may only be sanctioned.

EB(D) should write his suitably hereto

3. In keeping with the procedure followed so far, for staff sanctioned for the Electric Grid, I request that the Gazetted posts be sanctioned on 5 years contract basis and the non-gazetted staff for a period of 3 years. The posts will be fille in as and when necessary.

4. All the staff may kindly be granted the same conditions Pay, C.P.F. and other allowances as have been sanctioned to similar Grid Establishments.

5. I shall be obliged if you would kindly obtain the sanctic of Government to my proposals very early. In this connection I would invite a reference to my U.O.R. No.TS/12/11551 dated 26th May 1950 which explains the necessity of immediate decision in this matter.

P.W.D. U.O.N. to be dealt with by tech. (No 2204/36 42706) sent to EB I on 31-5-50
